

What is New:

- Windows 7 Intelligent Zoom support
- New CNN model to reduce GPU and Memory utilization of app
- Enhancements to Intelligent Zoom 2.0 reducing false positives
- Windows notification for CNN optimization status

Performed the test of PanaCast Vision which has new enhancements on version 2.3.1.6 in Windows 7(64-bit), Windows 8.1 (64-bit) & Windows 10 (64-bit). Below are the list of observations/issues which are known at this point of time.

Observations/Known Issues: N/A

Issue ID	Description	Status	Workaround / Comments
Whiteboard Issues			
2779	WB App crashed on Win8.1 Toshiba after enabling WB	RANDOM	Disable & Enable the WB will resolve the issue
2794	App is displaying the WB 30 Days Trial period pop up while activating the WB with license	ALWAYS	No functional impact. Just an UI issue. WB Licensing is NOT effected. Close the Pop up and WB will launch
2312	Readability on glass whiteboard is not good when there are lot of reflections	OPEN	WB enhancements improve readability but severe reflections can washout some content
2358	Black screen displaying after clicking on Rescan button in Camera mode instead of spinning wheel (detecting)	OPEN	Issue specifically occurs while doing Rescan on auto Whiteboard Camera mode. NO functional impact since WB is getting detected
2363	(Release Note) Green line displaying at the bottom of the Manual Whiteboard window	OPEN	No workaround at this point. Just an UI issue
PanaCast Vision Issues			
2749	[Release Note] People Count is functioning on still face as well	ALWAYS	No work around at this point of time
2720	[Release Note] When Intelligent Zoom is turned OFF from vision app, FOV is NOT reset to 180 degrees. When did the run time OFF of Intelligent Zoom from firmware well	ALWAYS	Specific to Win 7. No work around at this point of time. If IZ is OFF in the Firmware Utility, then IZ in vision app works fine
2521	[Release Note] KB installation is happening for 2nd time installation as well	OPEN	No work around at this point of time. Specific to Win 7. No functional impact, but installation could take couple of minutes extra

1632	Works with lower resolution only, video is not displayed in Vidyo app when "PanaCastPTZ" is selected in video settings	OPEN (No Plan to fix)	Vidyo does NOT work for resolution 1280 x 720 onwards. 360p30/450p30 works. Also, it shows up green distorted frame at times
1625	PanaCast Vision Driver is still displayed in imaging devices and also video settings of 3rd party app (zoom, Webex, skype) even after uninstalling/Reinstalling the app	OPEN	Specific to Win7. Recommended to reboot the Windows after uninstall of PanaCast Vision App
